# FINANCING PROPOSAL Vedanta seeks to upsize loan to \$2.75 billion ahead of delisting

# **BIJOU GEORGE & SUVASHREE GHOSH** Mumbai, July 1

**VEDANTA RESOURCES IS** seeking to increase a planned \$2.5-billion loan by \$250 million to help it advance a decision to delist its main India unit, according to people familiar with the matter.

The proposed upsizing comes as the London-based mining conglomerate prepares to begin the formal offer, seeking to buy back the shares it

doesn't already own in Vedanta. The firm won shareholder approval last week to begin the delisting process.

The decision is part of chairman Anil Agarwal's plan to simplify his investments across the erations are private. Both parts

complex multi-tiered corporate structure. Vedanta has interests in zinc, aluminum and oil and gas, all of which have been buffeted by volatile prices and concern about weak demand for metals and hydrocarbons because of the coron-

avirus pandemic. The new financing proposal would boost the second tranche of the loan to \$1 billion, while retaining the first at \$1.75 billion, the people said, asking not to be named because the delib-

of the funding rely on dividends from the mining giant's Hindustan Zinc unit, with the first part dependent on existing cash at the unit, and the second on proposed debt sales by Hindustan Zinc, the people said.

A company spokesperson declined to comment on the plan, and referred Bloomberg News to a statement on Friday that said Vedanta Resources is in the process of arranging the financing for the delisting and expects this to be concluded in comingweeks.—BLOOMBERG

# **INTERVIEW: HARSH SHAH,** CEO, IndiGrid 'InvITs can be platform to channelise foreign capital'

Infrastructure investment trusts (InvITs) preside over ₹70,000-crore of assets under management (AUM) across sectors such as real estate, gas transmission, telecom and power. Harsh Shah, CEO of KKR-backed IndiGrid, India's first InvIT in the power sector, told Vikas Srivastava in an interview that given India's huge need for investment in *infrastructure and also to keep* fiscal deficit under control, InvITs can be presented as a viable form of investment platform where a large amount of foreign and domestic capital can be harnessed in the near *future. Edited excerpts:* 

current setbacks.

The government scheme to provide credit to states has started, which will improve liquidity in the sector. The peak power demand on June 7 and June 13, as per data by load despatch centres, was higher than the peak demand of the same month last year, which is an indicator that demand has also picked up. There is definitely a visible trend that power consumption, which touched a low on March 25 and March 26, reached normal levels by the week of June 16. Of course, everything is not

block was reduced to 1 lakh units last year, which led to a substantial increase in volumes. We believe if this is brought down to 1 unit in equity share, that will proliferate InVITs further.

Within the InVIT market, in the last three years over ₹70,000-crore assets under management were created across sectors like real estate, gas transmission, telecom tower and power transmission lines, which is a phenomenal success for InvITs. Given the huge demand for investment in the country, a lot of new

domestic investors by reducing the investment ticket to 1 unit from 1 lakh.

You have done three asset acquisitions in the last three months. Have the acquisitions been completed in terms of transfer of money or were there some constraints due to the lockdown? The first is the ₹1,000-crore

The transmission segment has performed comparatively better than the overall power sector during the lockdown. How has been the business for IndiGrid, given that you also managed to acquire a couple of assets during the period?

We have been more or less insulated from the lockdown as our business is based on a take-or-pay basis. Even as the drop in revenue collections increased the working capital requirement, our prices remained firm. We are looking for our operations to continue to do well in the second quarter as well despite the

but electricity normal, demand is a good indicator that things have started to

look up. How do you think the

transmission sector will benefit from the overall improvement in liquidity in the sector?

The receivable cycle for the transmission sector was the lowest till now with an average of 50 days outstanding. However, due to Covid-19 the outstanding days have increased to 70-80 days due to a gap of 30-40 days in collections. If the overall sectoral liquidity improves, we are hopeful the days outstanding will come down to 50-60 days in the next two quarters.

Over the last three years since the company was formed, the overall assets under management (AUM) and trading volumes have grown three times forIndiGrid.However,we have not seen many InVITs in the market despite the initial buzz. Ever since we launched the InvIT, we have seen three times growth in AUM, revenues and dividend distribution. However, our growth was also supported by our investors like KKR and GIC which own majority stake in our company. As far as growth in volumes is

concerned, when IndiGrid was launched, the overall trading block was 5 lakh units, which led to lower liquidity. This

# PRESS TRUST OF INDIA Mumbai, July 1

THE LALBAUGCHA RAJA Ganesh Mandal, which installs Mumbai's most famous Ganpati idol, on Wednesday announced cancellation of the Ganesh Chaturthi celebration this year in view of the Covid-19 pandemic.

The 10-day festival begins on Ganesh Chaturthi, which falls on August 22 this year. The Lalbaugcha Raja Mandal has been installing the Ganpati idol at its pandal in central Mumbai since 1934.
